

RESEARCH

PARTICIPANTS NEEDED

You or your child are invited to participate in a research study in the Human Physiology Lab in the Department of Kinesiology at the University of Wisconsin-Madison about the impact of childhood insulin resistance on brain structure and function.

Participants Must Be:

- **12 - 18 Years-Old**
- **Non-Smoker**
- **Generally Healthy**
- **No Insulin Medications**

Procedures include measuring brain blood flow with MRI, questionnaires examining memory and thinking, and blood draws.

**Participants receive up to \$240
in compensation.**

Study involves:

- **One screening**
- **Three study visits**
