

EXECUTIVE SUMMARY REPORT

Verona Area High School

June 26th, 2020

New Sports on Site!

Several key installations have been made over the past two weeks bringing the site yet closer to its completion. The fencing in of the tennis courts, along with the installation of two sand volleyball courts have given color to some of the last unused territory on site. The track is now competition-ready after the completion of striping on its surface. Glazing film has been applied to the glass on the west side of the fieldhouse for a nice finishing touch to the building! In addition to these changes a scoreboard in the competition pool area and new asphalt paths have both taken their places on site.

The Past Weeks:

- Tennis Court Fencing
- Sand Volleyball Courts
- Track Striping
- Competition of Pool Scoreboard

Coming Up in the Weeks Ahead:

- Installation of Tennis Court Surface
- Completion of landscaping around the tennis courts

DID YOU KNOW?

Approximately 357 tons of Mason Sand were used to fill the new sand volleyball courts. If applied at a thickness of 1 inch, this amount of sand could cover the football field 1.5 times!

Seen in the photo above are the new sand volleyball courts. In the upper right, a portion of the freshly paved asphalt path can be seen. Below that, notice the fresh striping on the track surface. The photo on the bottom left shows the newly installed scoreboard on the north wall of the competition pool area.
