

EXECUTIVE SUMMARY REPORT

Verona Area School District Renovations

July 2nd, 2020

Verona Area School District

"Every Student MUST Be Successful!"

First Drywall Hung!

Framing and drywall have been one of the larger focuses on site over the past couple of weeks. As a result of this, the milestone of the first drywall wall being hung has been reached in both the K-Wing and New Sugar Creek buildings! Drywall will continue to be hung over the next couple of weeks. The start of taping and painting has also occurred!

With summer flying by, the new finishes of the remodels will be coming one after another! Finishes to be seen within the next couple weeks include finish flooring, the install of the first bathrooms tile and the hanging of the first ACT ceiling!

The Past Week:

- Water Main Completion
- First Site Concrete Pour
- New Office Entrance Footing Pour
- First Drywall Hung

Coming Up in the Weeks Ahead:

- First Flooring Install
- New Storefront Entrance DEMO
- Retaining Wall Install
- Ongoing Site Work
- First Taping and Painting

DID YOU KNOW?

Did you know that approximately 35% of the K-Wing building is to receive new flooring. That amounts to a mixture of over 25,000 Square feet of carpeting, laminate, vinyl, and ceramic tile!

EXECUTIVE SUMMARY REPORT

Verona Area School District Renovations

July 2nd, 2020

The photo above shows a newly framed wall within one of the K-Wing Classrooms. The image above and to the left shows the status of the new classroom framing at New Sugar Creek. The photo below and to the left shows the entrance to the K-Wing office having now been relocated to create a new layout. And the image just below shows some of the newly built walls of that office which have received some of the first paint applied on site!
