

VISIONING TEAM UPDATE

VERONA AREA HIGH SCHOOL

07/12/2017

ACTIVITIES & HIGHLIGHTS

- The Visioning Design Team will formally meet one more time in August before EUA completes Schematic Designs. We now have *preliminary design concepts* for the new high school's three-story structure, organizational layout by floor, campus layout, and circulation around the site. Although this will continue to evolve as design, engineering and budget reviews are completed, the new high school is taking shape!
- EUA presented a Schematic Design progress update to over 75 staff and community members on July 18 at Badger Ridge Middle School and July 20 (Spanish interpretation) at Glacier Edge Elementary School.

VISIONING SESSION #4 SUMMARY

During the fourth visioning session we evaluated how the building mass and organizational layout aligns with the **GUIDING PRINCIPLES** established earlier in the process with our team, and student, staff and Board input. We looked at the orientation of the building on the site, access to parking and parent/bus circulation, entry points to the building, placement of athletic fields, and location/adjacency of academic departments. A careful evaluation of teaching spaces, collaborative learning spaces, and office requirements occurred. We discussed how core academic spaces relate to common areas (e.g. location(s) for cafe/food service, multi-story library media center, performing arts center and athletic venues) and how to appropriately distribute student services effectively throughout the building. In addition, we reviewed needs and location for storage, delivery and service areas to support the high school and campus.

Through 3D imaging we are beginning to understand how the new high school will "feel" as you move through the building and around the site. By the end of September, Schematic Designs will be complete. It will be reviewed for viability and budget alignment by the Board and will then advance to the next phase, Design Development.

STAFF INPUT

Meetings with a broad group of high school staff and department leadership will be scheduled for the end of August. This will provide additional opportunities to integrate staff feedback as we finalize Schematic Design.

We value your input and encourage you to review each of the Visioning Team Updates. Please share your feedback and questions with the **VISIONING DESIGN TEAM**.

QUESTIONS? Contact the **VISIONING DESIGN TEAM** or Kelly Kloepping @ kloepik@verona.k12.wi.us

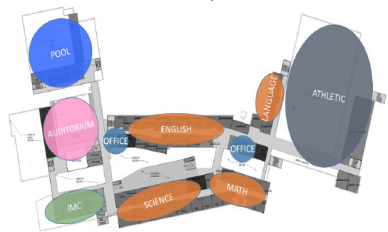

UPCOMING MEETING

August TBD, 2017
1:00 - 4:00pm
District Office
